

Department of Health Provides Update on COVID-19, 1,120 Positives Bring Statewide Total to 109,384

Harrisburg, PA - The Pennsylvania Department of Health today confirmed as of 12:00 a.m., July 28, that there are 1,120 additional positive cases of COVID-19, bringing the statewide total to 109,384. All 67 counties in Pennsylvania have cases of COVID-19.

Allegheny County is reporting an increase of 119 cases, Philadelphia County is reporting an increase of 175 cases and Delaware County is reporting an increase of 118 cases.

The number of tests administered within the last 7 days between July 21 and July 27 is 162,937 with 6,526 positive cases. There were 24,428 test results reported to the department through 10 p.m., July 27. These results represent the total number of tests administered.

There are 7,146 total deaths attributed to COVID-19, an increase of 24 new deaths reported. County-specific information and a statewide map are available on the [COVID-19 Data Dashboard](#).

“As the state has put in place new mitigation efforts to offset recent case increases, we must renew our commitment to protecting against COVID-19 by wearing a mask, practicing social distancing and following the requirements set forth in the orders for bars and restaurants, gatherings and telework,” Secretary of Health Dr. Rachel Levine said. “Pennsylvania has been a model for the country on how to reopen effectively using a careful, measured approach. However, we know the virus has not gone away as we see cases rise, so we must work together to stop another surge.”

Mask-wearing is required in all businesses and whenever leaving home. Consistent mask-wearing is critical to preventing the spread of COVID-19.

There are 641 patients who have a positive serology test and either COVID-19 symptoms or a high-risk exposure, which are considered probable cases and not confirmed cases. There are 1,059,776 patients who have tested negative to date. Of the patients who have tested positive to date the age breakdown is as follows:

- 1% are ages 0-4;
- 1% are ages 5-12;
- 3% are ages 13-18;
- 9% are ages 19-24;
- 37% are ages 25-49;
- 23% are ages 50-64; and
- Nearly 25% are ages 65 or older.

Most of the patients hospitalized are ages 65 or older, and most of the deaths have occurred in patients 65 or older.

The department is seeing significant increases in the number of COVID-19 cases among younger age groups, particularly 19 to 24-year-olds. [An alert was sent to healthcare providers](#) about the changing COVID-19 case demographics, as there are more cases in younger age

groups than in those 50-64 and 65+. The following regions have seen significant increases among 19 to 24-year-olds in each month from April to present in July:

- SW – Approximately 5 percent of cases in April to nearly 19 percent of cases so far in July;
- SE – Nearly 5 percent of cases in April to nearly 19 percent of cases so far in July;
- NE – 6 percent of cases in April to nearly 17 percent of cases so far in July;
- SC – Approximately 7 percent of cases in April to approximately 14 percent of cases so far in July.
- NW – Nearly 7 percent of cases in April to nearly 13 percent of cases so far in July; and
- NC – Nearly 8 percent of cases in April to nearly 14 percent of cases so far in July.

In nursing and personal care homes, there are 19,225 resident cases of COVID-19, and 3,868 cases among employees, for a total of 23,093 at 835 distinct facilities in 61 counties. Out of our total deaths, 4,857 have occurred in residents from nursing or personal care facilities.

Approximately 8,045 our total cases are in health care workers.

For the latest information for individuals, families, businesses and schools, visit “Responding to COVID-19” on pa.gov.

Currently, all 67 counties are in the green phase of reopening.

Statewide – The Wolf Administration has since noon, July 27:

- Provided [Pennsylvania State Police enforcement data](#).
- Noted that [pediatricians and child advocates endorse mask-wearing](#), including for children older than 2.

The Wolf Administration stresses the role Pennsylvanians play in helping to reduce the spread of COVID-19:

- Wash your hands with soap and water for at least 20 seconds or use hand sanitizer if soap and water are not available.
- Cover any coughs or sneezes with your elbow, not your hands.
- Clean surfaces frequently.
- Stay home to avoid spreading COVID-19, especially if you are unwell.
- If you must go out, you are required to wear a mask when in a business or where it is difficult to maintain proper social distancing.

All Pennsylvania residents are encouraged to sign up for AlertPA, a text notification system for health, weather, and other important alerts like COVID-19 updates from commonwealth agencies. Residents can sign up online at www.ready.pa.gov/BelInformed/Signup-For-Alerts.
