

## Department of Health Provides Update on COVID-19, 991 Positives Bring Statewide Total to 122,121

**Harrisburg, PA** - The Pennsylvania Department of Health today confirmed as of 12:00 a.m., August 13, that there are 991 additional positive cases of COVID-19, bringing the statewide total to 122,121. All 67 counties in Pennsylvania have cases of COVID-19.

Allegheny is reporting an increase of 114 cases and Philadelphia is reporting an increase of 192 cases.

The number of tests administered within the last 7 days between August 6 and August 12 is 162,548 with 5,416 positive cases. There were 25,714 test results reported to the department through 10 p.m., August 12. These results represent the total number of tests administered.

There are 7,409 total deaths attributed to COVID-19, an increase of 24 new deaths reported. County-specific information and a statewide map are available on the [COVID-19 Data Dashboard](#).

“The mitigation efforts in place now are essential as the new school year approaches and we work to ensure our children can get back to learning,” Secretary of Health Dr. Rachel Levine said. “Wearing a mask, practicing social distancing, and following the requirements set forth in the orders for bars and restaurants, gatherings and telework will help keep our case counts low. Together, as Pennsylvanians, we each have a part to play in working to ensure that cases of COVID-19 remain low.”

Mask-wearing is required in all businesses and whenever leaving home. Consistent mask-wearing is critical to preventing the spread of COVID-19.

There are 644 patients who have a positive serology test and either COVID-19 symptoms or a high-risk exposure, which are considered probable cases and not confirmed cases. There are 1,271,976 patients who have tested negative to date. Of the patients who have tested positive to date the age breakdown is as follows:

- 1% are ages 0-4;
- 1% are ages 5-12;
- Nearly 4% are ages 13-18;
- Nearly 10% are ages 19-24;
- Nearly 38% are ages 25-49;
- Nearly 23% are ages 50-64; and
- Nearly 24% are ages 65 or older.

Most of the patients hospitalized are ages 65 or older, and most of the deaths have occurred in patients 65 or older.

The department is seeing significant increases in the number of COVID-19 cases among younger age groups, particularly 19 to 24-year-olds. [An alert was sent to healthcare providers](#) about the changing COVID-19 case demographics, as there are more cases in younger age groups than in those 50-64 and 65+. The following regions saw significant increases among 19 to 24-year-olds in each month from April to present in August:

- SE – Nearly 5 percent of cases in April to nearly 16 percent of cases so far in August;
- NE – 6 percent of cases in April to approximately 18 percent of cases so far in August;
- SW – Approximately 5 percent of cases in April to nearly 12 percent of cases so far in August;
- SC – Approximately 7 percent of cases in April to nearly 12 percent of cases so far in August;
- NW – Nearly 7 percent of cases in April to nearly 10 percent of cases so far in August; and
- NC – Approximately 7 percent of cases in April to approximately 8 percent of cases so far in August.

In nursing and personal care homes, there are 20,244 resident cases of COVID-19, and 4,192 cases among employees, for a total of 24,436 at 888 distinct facilities in 61 counties. Out of our total deaths, 5,037 have occurred in residents from nursing or personal care facilities.

Approximately 8,790 of our total cases are amongst health care workers.

Currently, all 67 counties are in the green phase of reopening.

**Statewide – The Wolf Administration has since noon, August 12:**

- Provided [Pennsylvania State Police enforcement data](#).

**The Wolf Administration stresses the role Pennsylvanians play in helping to reduce the spread of COVID-19:**

- Wash your hands with soap and water for at least 20 seconds or use hand sanitizer if soap and water are not available.
- Cover any coughs or sneezes with your elbow, not your hands.
- Clean surfaces frequently.
- Stay home to avoid spreading COVID-19, especially if you are unwell.
- If you must go out, you are required to wear a mask when in a business or where it is difficult to maintain proper social distancing.

All Pennsylvania residents are encouraged to sign up for AlertPA, a text notification system for health, weather, and other important alerts like COVID-19 updates from commonwealth agencies.
